## OUR VALUES

Our vision is to lead the Mid-Atlantic in compressed air solutions that improve people's lives and protect the environment. Our employees live our values and solve customer challenges with products and solutions that make a difference.

### CUSTOMER SERVICE

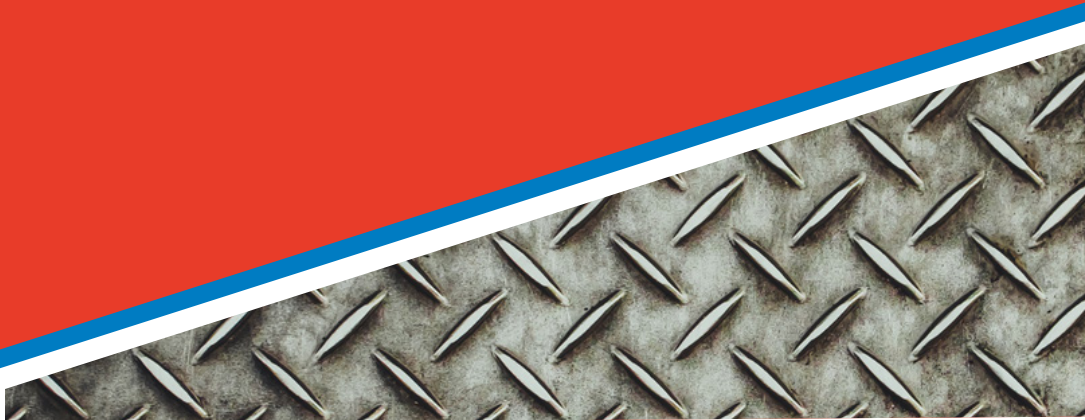

We are committed to providing excellent products and maintaining them with the highest quality of customer service. We know that having systems run smoothly is integral to the efficiency of a business, and that being able to trust your equipment allows for the best results.

### ENVIRONMENTAL RESPONSIBILITY

We are dedicated to doing our part as a company to ensure that we act with responsibility to the environment. Some concerns we address include:

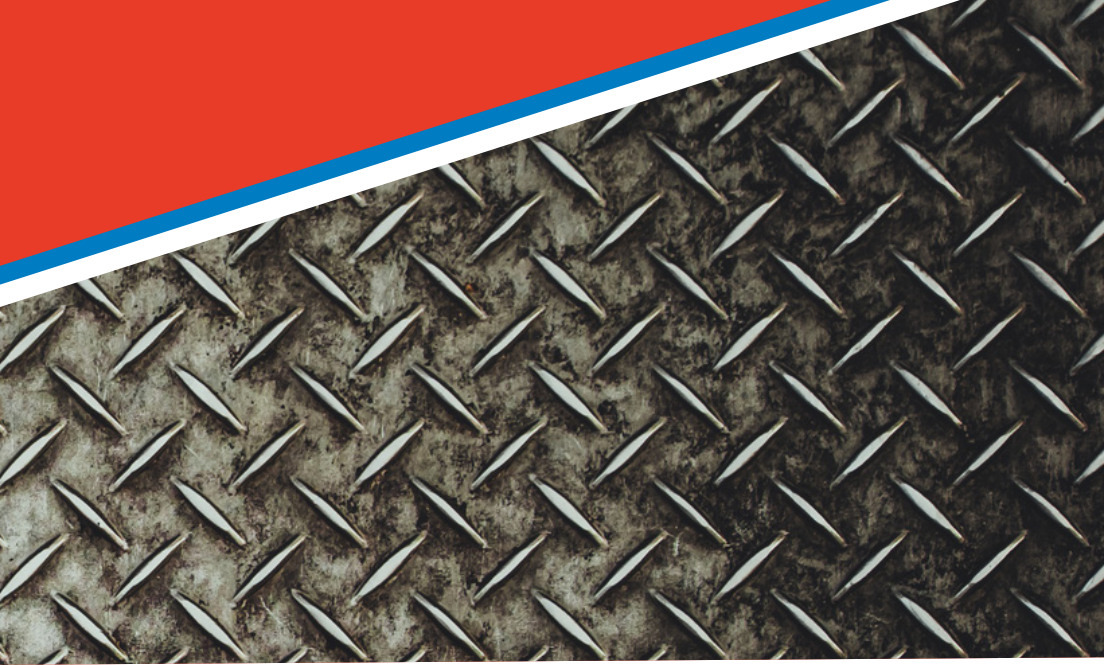

- Using oil/water separators on Air Compressor installations as a method of separating oils from a variety of wastewater discharges
- Easy-to-use systems minimize the chance of user errors.

# WHO WE CARRY

WE SUPPLY  
THE BEST  
COMPRESSED  
AIR & VACCUUM  
SYSTEMS ON  
THE MARKET

We're committed to quality, and that is why we proudly sell and service only the best machines and equipment on the market.

WE'RE AN AUTHORIZED DISTRIBUTOR OF  
THESE FINE BRANDS

**CHAMPION**<sup>®</sup>

**Chicago  
Pneumatic**

 **BECKER**

**FS CURTIS**<sup>®</sup>

## INDUSTRIES WE SERVICE

Our compressors are integral to helping multiple industries achieve their goals and run smoothly.

# PRODUCTS

## MATTEI

Vanes integrated into a single cylinder rotate to create the air in this rotary vane air compressor. Air ends in this compressor are *good for 100,000 hours* and don't require the vanes to be changed. Best for any industry with a lot of air demand who would require the compressor to run frequently.

## FS-CURTIS

This is a rotary screw air compressor. They're best used in applications with a high demand of air. Curtis uses two "screws" that run together in the end to create the air. Great for railroads, breweries & automotive shops.

## POWEREX

This is an oil free scroll air compressor. This compressor is best used in industries that require oil free and clean air. Great for hospitals, food & beverage industries, laboratories, amusement parks

## AT A QUICK GLANCE

The products shown here represent a few of the high quality air compressors that we sell and service. For a complete list, visit us online.

# TESTIMONIALS

"LBS's customer service is bar-none...they work well with designing and coming up with solutions to your problems and then servicing any errors or malfunctions you may have."

BROCK ZADROZNY

"The compressor has yet to have any issues, which has allowed us to schedule months in advance how beer is going to move because we know that it is reliable."

MATT HUGHES

"What impresses me about LBS is their service. They provide on-time service. You never have to second guess that they will be there on time."

DAN MILLER

## HEAR FROM OUR CLIENTS

We have built excellent relationships with clients across multiple industries . Below are some of the kind words that they have had for LBS.

“They have been servicing all of our compressors since we started doing business with them. In the year and a half we’ve been doing business with them we have had absolutely a great relationship.”

MIKE PECILUNAS

Howard Hughes  
Medical Institute

“People should work with LBS because they are there for you. They’re not one of those companies where you get an answering machine. You can always talk to someone.”

ROB EDWARDS

“Our new Mattei is saving us anywhere from \$500 to \$700 a month on our electric bill. LBS is a company you can count on. They have the ability to set up and define the proper system for your company.”

SCOTT SAUNDERS
